## It's all about fresh.

Few things taste and look better than field fresh vegetables, impeccably roasted. From the fields of California's Central and Imperial Valleys, we select vine ripened produce, all hand harvested and selected for color and freshness to produce our signature line of restaurant quality, true center-of-the-plate individually quick frozen roasted vegetables.

At Haliburton we use proprietary high-temperature roasting and flame-searing processes followed by a unique flash freezing system to produce outstanding frozen roasted and grilled vegetables with fresh flavor, bold, vibrant colors and a crisp, firm texture – a true replacement for fresh cut vegetables.

### **Crisp, firm and flavorful.**

The typical soft, wet texture and washed out color of conventional blanched, roasted and grilled frozen vegetables are a thing of the past with our unique process. We are able to consistently produce vegetables with no telltale weeping or syneresis. Our vegetables perform brilliantly in fajitas, burritos and tacos, on top of pizzas, burgers and sandwiches and exquisitely as a center-of-the-plate accompaniment to any entrée – and because they are certified Ready-to-Eat, can be used cold in salads or as a garnish.

### **More than 40 different vegetables in over 100 different cuts.**

With over 40 different vegetable varieties in hundreds of different cuts,

we can supply you with almost anything you need. From diced, sliced, julienne, medallions, quarters, crinkle cuts, matchsticks, whole and frankly any other cut, we most certainly offer any solution you require. From Asparagus, Butternut Squash,

Edamame, and Fennel to Garlic, Mushrooms, Poblano Peppers and Zucchini, Haliburton has all the varieties that you are looking for and then some.

### **Unique packaging, exclusive blends.**

We offer unique packaging solutions for retailers, foodservice operators and industrial food manufacturers. From 6-ounce microwavable packages to 1,000-pound bulk totes, we offer a

multitude of packaging options. Pick your product; pick your package, we here to help.

How about a blend of vegetables? We offer any combination of roasted, grilled and non-roasted vegetables, formulated to our exacting standards and packaged just the way you require them. Our team of chefs can add seasoning or enrobe the vegetables

in sauce to create your signature blend. How about adding IQF Rice, IQF Pasta, or IQF Seafood to any blend – Szechuan Shrimp with Wild Rice and Roasted Sugar Snap Peas, Matchstick Carrots and Brown Mushrooms? Go ahead challenge us, we're always ready to prove ourselves, we push ourselves everyday.

Haliburton, equal parts food, science and taste.

INTERNATIONAL FOODS

## Anchovy pastes and purées.

We are the largest manufacturer of anchovy pastes and purée in the world. Available in more than 20 different formulations, including low salt purées, these products are distributed primarily to salad dressing and sauce manufacturers worldwide. All of our products are Kosher certified and preservative free. Available in package sizes from 20 pounds to 2500 pounds, we have the right formulation and packaging solution for every application.

## What you should know about Haliburton.

Created in 1992 with the goal of combining food science and culinary excellence to improve the quality and reduce the cost of prepared foods, today, we are a specialty foods powerhouse. We serve national retailers, multi-unit restaurant operators and international food manufacturers from our new 300,000 sq. ft. state-of-the-art manufacturing facility in Ontario, California. With hundreds of different products and packaging solutions from 8 ounces to 3000 pounds, we have the product and packaging solutions you're looking for.

## Salsas.

No one offers a broader line of high-quality salsas. Our unique Flash Pasteurizing – Flash Cooling technology allows us to lock in subtle flavors and volatile aromas to produce salsas with vibrant colors and fresh flavors. We offer Dipping Salsas, Fire Roasted or Fruit Salsas and traditional Mexican table salsas all in a certified safe, Ready-to-Eat product.
