HALIBURTON
INTERNATIONAL FOODS

Purées, Pastes, Sauces and IQF Vegetable Blends

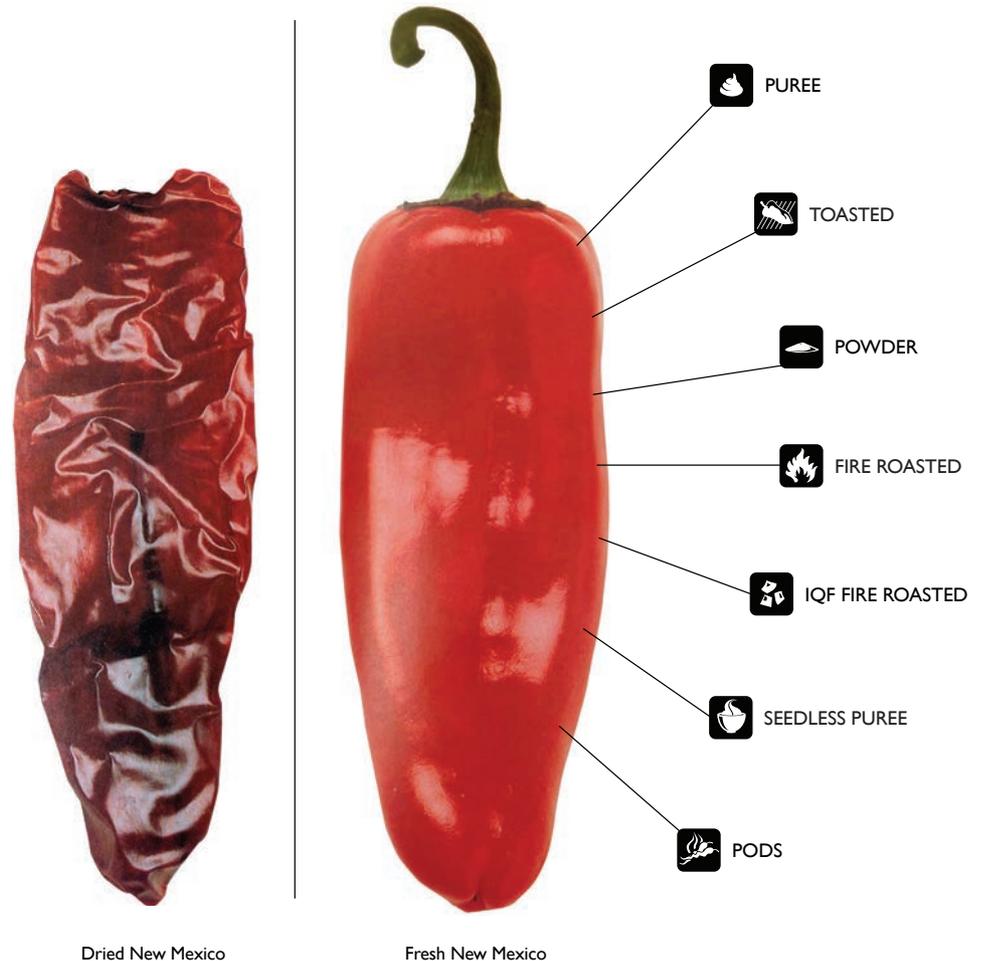

Mole, salsa and sauces, it all starts with the chile.

Frankly, nobody does Chile Peppers in so many different ways. From pods to purées, fire roasted to toasted, and everything in between. All of our Chile products are Kosher approved and GMO free. Remember, however you need them we can supply them. Go crazy, be bold. We're Haliburton and we're the Chile Pepper experts.

Haliburton produces a line of fully pasteurized chile pepper pastes, purées and pepper sauces. Distributed primarily to industrial food manufacturers and foodservice operators, these products utilize a proprietary mechanical cleaning, de-stemming and de-seeding process developed by Haliburton engineers. This unique process replaces the work of hundreds of human hands at a fraction of the cost and creates significant product and cost advantages over all of the competition. By virtue of this technology, Haliburton is the market leader in many of the new flavor trends showing up on store shelves and restaurant tables today, including ancho, chipotle, habanero and pasilla en panela.

All of our chile pepper pastes, purées and pepper sauces are available in packages from 1 pound through 3000 pound bulk totes.

These products utilize a proprietary mechanical cleaning, de-stemming and de-seeding process.

Dried New Mexico

Fresh New Mexico

Chipotle Pepper Sauce

Fire Roasted Jalapeño Pepper

Fire Roasted Crushed Tomato

Ginger Purée

Thai Chile Pepper Purée

Chile Garlic Sauce

Vegetable Purées and Bases

For almost two decades, Haliburton has been manufacturing and distributing a full line of fully pasteurized, aseptically filled vegetable bases and purées. Available in more than 45 different vegetable varieties, these products are distributed primarily to industrial foods manufacturers worldwide. In addition to these products, we also offer most items in roasted, sautéed or grilled vegetable purées and bases as well as a variety of vegetable blends. Using a continuous process of steam sterilization and rapid cooling, we are able to preserve the vibrant colors and fresh flavor of the vegetables and reliably kill spoilage organisms, enzymes and pathogens.

Available in packages from 40 pounds to 3000 pound totes, these aseptic products can be stored and shipped without refrigeration and have up to two years shelf life. And best of all, most of our products are all natural, preservative free and Kosher certified. Packed under the supervision of the FDA, these products are certified to be commercially sterile.

IQF Fire Roasted Vegetables and Vegetable Blends

Haliburton manufactures a line of restaurant quality, true Center-of-the-Plate Individually Quick Frozen Roasted Vegetables. Using a proprietary High-Temperature Flame Roasting process followed by Flash Freezing, we are able to produce a frozen roasted vegetable with fresh flavor, vibrant color and firm texture, a true replacement for fresh vegetables. The typical soft texture and washed out color of conventional frozen vegetables is a thing of the past with our proprietary process, as is the telltale weeping or syneresis. Our vegetables perform brilliantly in salads, on top of pizzas, and as a Center-of-the-Plate accompaniment to any entrée - and they are certified Ready-to-Eat. We offer over 40 different vegetable varieties in hundreds of different cuts.

Anchovy pastes and purées.

We are the largest manufacturer of anchovy pastes and purée in the world. Available in more than 20 different formulations, including low salt purées, these products are distributed primarily to salad dressing and sauce manufacturers worldwide. All of our products are Kosher certified and preservative free. Available in package sizes from 20 pounds to 2500 pounds, we have the right formulation and packaging solution for every application.

What you should know about Haliburton.

Created in 1992 with the goal of combining food science and culinary excellence to improve the quality and reduce the cost of prepared foods, today, we are a specialty foods powerhouse. We serve national retailers, multi-unit restaurant operators and international food manufacturers from our new 300,000 sq. ft. state-of-the-art manufacturing facility in Ontario, California. With hundreds of different products and packaging solutions from 8 ounces to 3000 pounds, we have the product and packaging solutions you're looking for.

Salsas.

No one offers a broader line of high-quality salsas. Our unique Flash Pasteurizing – Flash Cooling technology allows us to lock in subtle flavors and volatile aromas to produce salsas with vibrant colors and fresh flavors. We offer Dipping Salsas, Fire Roasted or Fruit Salsas and traditional Mexican table salsas all in a certified safe, Ready-to-Eat product.
